Looking for a graduation company or an internship? Do you want to join our team and participate in an international contest?

Introduction:

Celcius and the Hogeschool Utrecht are working together to compete in an international contest: The Solar Decathlon. The team currently consist out of 25 students. Our team is engaged in developing a self-sufficient and sustainable house. In 2017 the previous team, the only one from Europe at that time, also competed in the Solar Decathlon. Of the ten game parts, they won the 3rd prize in the category 'Water' and the 2nd price in 'Market Potential'. In addition, they won the audience award.

The Solar Decathlon is the leading competition in the field of sustainable building. We are currently building the team for the contest in 2020 in Washington. We are looking for enthusiastic students who want to join our team and want to be part of this challenge! In this challenge we are supported by teachers from different study programmes that are connected to the program Wonen 3.0. We are also supported by industry partnerships.

Who are we looking for?

We are looking for students from different study programmes. Students who like a challenge, can work independently and want to delve into their own study. Students who learn when they DO! We work in multidisciplinary teams, you are responsible for the job you take on and together with all the other student for the final result. Therefore, you can learn a lot about what it takes to run a project, from each other, from seeing what is possible, letting your creativity run free and, of course, participating in an international competition. And all of that for a good cause: building a sustainable world!

What can we offer you?

The opportunity to do your graduation, internship or honours with us. What's in it for you?

- A environment that is international and multidisciplinary
- A great experience to investigate a relevant topic
- Making products, which are also actually used
- A good way to get practical experience that will allow you to rise above others
- A lot of fun in a mixed team from all sorts of study programs in which hard work and some drinks from time to time also have a place
- Competing in a International contest in Washington in 2020

Have you become enthusiastic and would you like to know more or join our team? Mail us Celcius@hu.nl
