MURDER MYSTERY ESCAPE ROOM DOSSIER

Welcome at Hogeschool Utrecht!

School hasn't even started yet and we already found a body at the HU. This morning the clean-up crew found a body while preparing for today. The victim is non other than our own studies manager. There are 10 suspects from which we will pick the murderer. With your help and enthusiasm we should be able to do this.

The investigation works as follows:

In this first worksheet you will find the files on the victim, as well as the suspects, and the crime scene photo. I would advice to read through this carefully so you don't miss anything. In a bit you will receive the first clue from your teacher, AKA the lead detective. By sharing your solved clues with your lead detective you earn the next clue. At most rounds there will be the possibility to eliminate one of the suspects. In the worksheets will be mentioned when this is. But be careful! Sometimes the clues are hard to solve.

To start this investigation you will need: a pen/pencil, scissors and a lot of enthusiasm.

You are allowed to cut, tear and scribble on the worksheets if this helps you solve the problem.
