

INSTRUCTIONS

Hogeschool Utrecht has developed a toolbox to support lecturers and staff during the introduction period. This toolbox is fully plug-and-play and offers a series of fun and playful activities to introduce students to each other and to HU.

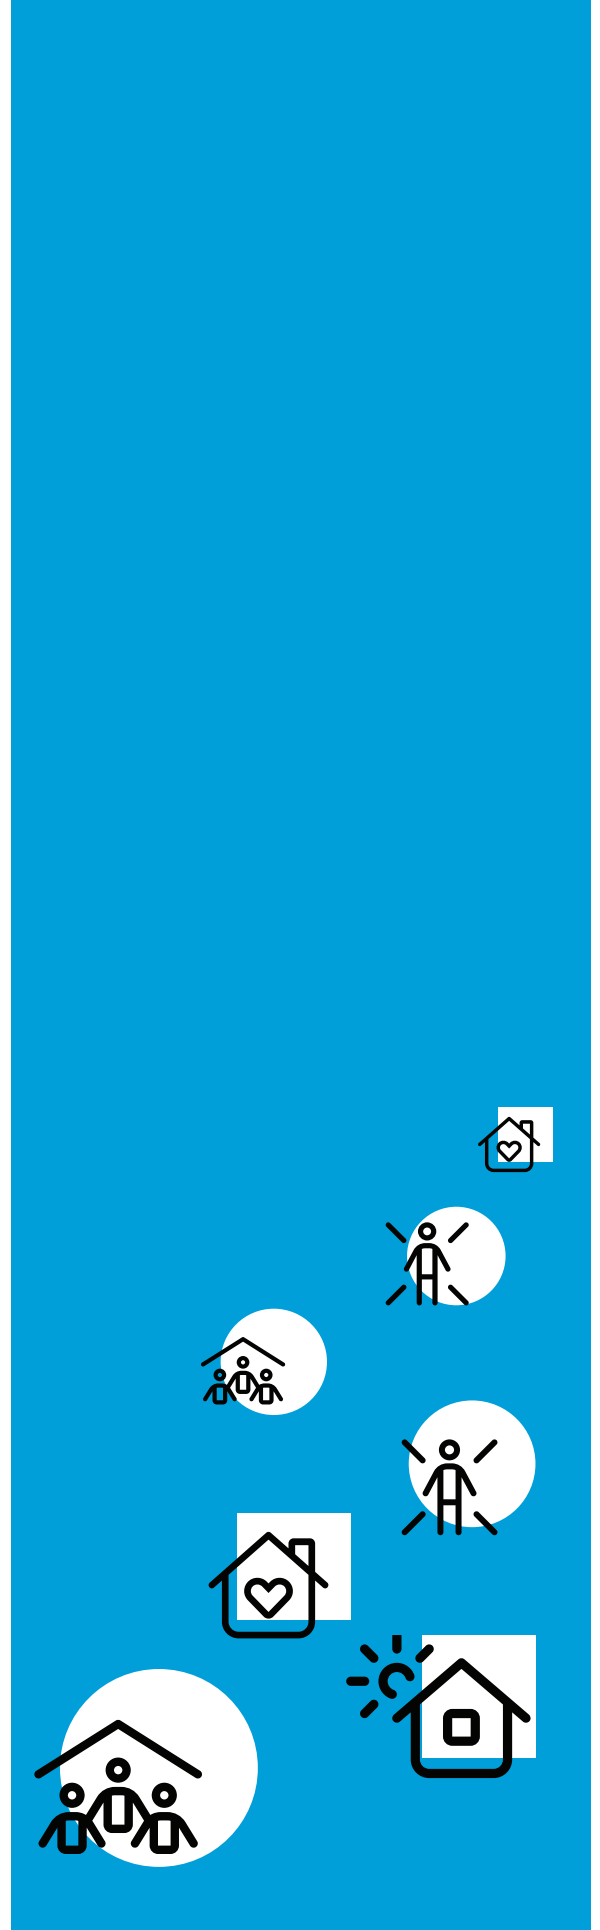

- Scavenger hunt
- Murder Mystery Escape room
- Conversation cards - Food for thought
- Information sheet HU Community
- PowerPoint HU Community

You can get started right away with the online version, or contact us for a printed version. The entire toolbox is available in both Dutch and English.

Scavenger hunt

An ICT student has shredded the new Wi-Fi code into pieces and scattered it across the campus. The school has selected a group of students to solve this riddle. This scavenger hunt includes collaborative tasks, offers information about opportunities within the HU and leads students to places on the Science Park where they can find peace or socialising. The scavenger hunt is offered in four variants, so that different groups of students can leave and participate at the same time. The game duration is 1 to 1.5 hours. The scavenger hunt includes:

- Teacher instructions
- Scavenger hunt - Assignment sheets route 1
- Scavenger hunt - Assignment sheets route 2
- Scavenger Hunt - Assignment sheets route 3
- Scavenger Hunt - Assignment sheets route 4

Murder Mystery Escape room

A murder has been committed at Hogeschool Utrecht... A group of students have been chosen to unmask the culprit (one of the college's teachers). They can only do this by working well together and getting to know each other, their study programme and Hogeschool Utrecht better. Through various assignments, riddles and puzzles, the students discover who the culprit is. To play this Murder Mystery Escape Room, all you need is a classroom, the rest is print and ready! The game duration is 1.5 to 2 hours. The escape room includes:

- Teacher instructions
- Escape room - Dossier
- Escape room - Assignment sheets

Conversation cards - Food for thought

Rack your brains with these conversation starters. The dialogue questions help students get to know each other better.

Information sheet HU Community

The information sheet contains essential information about HU Community initiatives. These materials can be used in introductions, lectures or learning team meetings to introduce them to students.

PowerPoint HU Community

The PowerPoint contains essential information about HU Community initiatives. These materials can be used in introductions, lectures or learning team meetings to introduce them to students.
