SCAVENGER HUNT

ROUTE 4

UNIVERSITY OF APPLIED SCIENCES UTRECHT

IMPACT YOUR FUTURE

START

Welcome at Hogeschool Utrecht!

With this scavenger hunt you will discover Utrecht Science Park and all the possibilities offered by Utrecht University of Applied Sciences. For instance, where can you relax, admire beautiful nature or find useful books? Find the places that you will enjoy and benefit from during your study time.

You are an elite team of students, famous for your extremely high grades and sociability. Today, however, you are faced with a big problem: the school's WIFI code has been changed. An ICT student has spread the code around Utrecht Science Park, hoping that this will make students go out more and discover the possibilities of the campus. No one can work without the internet, so you have been given the task of retrieving the code.

Important: your mobile data has run out, except for one person. Choose the one who can look things up on the internet during the scavenger hunt. Because you can only use one phone, it can be handy to bring pen and paper.

ASSIGNMENT:
MAP READING

ICT student: "Hello team! The campus is not a very complicated place, but when you look up everything on your phones you pay less attention. Therefore, this assignment was created. Phones are not to be used. The map shows a designated spot where you can look for the next hint. Map reading is trickier than you would think, so work together to find landmarks."

ASSIGNMENT: BOOKS

ICT student: "It's time to work together. Your teacher has brought a stack of books for you. The idea is that you will walk 10 metres back and forth with this stack on your head balanced. Everyone takes a turn. Do this as quickly as possible!"

CAMBRIDGELAAN BBQ

Studying can be stressful and sometimes it is important to unwind. This does not mean scrolling through your phone or watching videos, but really going out into nature for example. Cambridgelaan BBQ is a popular spot on campus to do just that.

As Florence Williams explains in "The Nature Fix," spending time in nature can make us happier, healthier and more creative. Dr Qing Li's "Forest Bathing" also shows how simply being present in a wooded environment can significantly improve our well-being. So, allow yourself that much-needed time in nature; it is scientifically proven to help.

Adress: Cambridgelaan 901, 3584 DW Utrecht

ASSIGNMENT: COORDINATING

ICT student: "Good luck finding the next location. This is the only tip I will give you."

Riddle 1
I am an edible fruit, which grows in the Netherlands, white/yellow inside and green/brown outside, often used in desserts. I grow on a tree and am almost the brother of the apple. What am I?

Riddle 2
I am a silent traveller with my home on my back. My path is marked by a silvery trail. Patient and slow, I overcome obstacles without haste. What am I?

Riddle 3
I am a little green plant that you can buy whole at the supermarket. You use me in all kinds of dishes, especially Mediterranean cuisine. My leaves are very small and my name has four letters. What am I?

Riddle 4
I am a flowering entity, often chosen for my aesthetic allure and fragrant embrace. My protection consists of sharp sentinels, and my presence can symbolise both love and pain.

Riddle 5
I have waves but no hair, what am I?
