

SUSTAINABILITY DEFINITION:

When new ways of working and improved outcomes become the norm.¹

¹ Sustainability: Model and Guide. National Health Service Institute for Innovation and Improvement. (2007). Note: When our work in sustainability began, the Sustainability: Model and Guide was publicly available online. Access is now limited to those working in the United Kingdom.

APPENDIX A

SUSTAINABILITY FACTORS:

DEFINITIONS AND EXAMPLES

PERCEIVED VALUE – acknowledged value by those affected by the new ways of working and improved outcomes. Examples include project activities being considered potentially beneficial by clients, service providers, or community members.

MONITORING AND FEEDBACK – monitoring is conducted on a regular basis and feedback is shared in easy to understand formats. Examples include information-gathering calls to monitor the project, and feedback provided to key staff using easy-to-understand formats (e.g., graphs).

LEADERSHIP – the degree to which leaders (including decision-makers and champions) continue to be actively engaged beyond the implementation stage. Examples include ongoing attendance at meetings focused on the new ways of working and ongoing monitoring of outcomes.

STAFF – staff has the skills, confidence, and interest in continuing the new ways of working and improved outcomes. Examples include staff being able to use a new referral system capably or thinking that a new curriculum is more effective in achieving better outcomes.

SHARED MODELS – continued use of a shared model among those involved in the new ways of working. Examples include the Chronic Care Model, the 40 Developmental Assets, the 5As, or Plan-Do-Study-Act (PDSA).

ORGANIZATIONAL INFRASTRUCTURE – degree to which organizational operations support the new ways of working and improved outcomes. Examples include rewriting job descriptions to support the project activities and channeling resources to project activities through the organization's business plan.

ORGANIZATIONAL FIT – degree to which the new ways of working and improved outcomes match the organization's overall goal and operations. Examples include project activities becoming part of the organization's strategic plan.

COMMUNITY FIT – degree to which the new ways of working and improved outcomes match community interests, needs, and abilities. Examples include an expressed desire for new or improved services and outcomes.

PARTNERS – involvement of partners who actively support new ways of working and improved outcomes. Examples include partners who continue to contribute staff or resources after the implementation phase.

SPREAD – expansion of new ways of working and improved outcomes to additional locations. Examples include expanding activities planned for one community agency or department to new agencies or departments.

FUNDING – funding beyond original project period. Examples include extensions of original grant funding or funding to expand project activities to additional populations or communities.

GOVERNMENT POLICIES – degree to which new ways of working and improved outcomes are supported by government policies. Examples include reimbursement for a new service or incorporating outcome measures into surveillance systems.
